HYDRAULICS AND PNEUMATICS

1983 Editorial Index

Out-of-print copies are available in complete volumes as positive microfilm copies from University Microfilms, 300 N. Zeeb Rd., Ann Arbor, MI 48103.

	Month	Page
Aerospace		
B-1B hydraulics; practical, innovative designs, V. J. Austin	Sep	61
High tech Boeing 757 has sophisticated monitors, J. E. Klansnic	May	61
Hydraulic designs help insure F-18's combat readiness, J. R. Snyder	Dec	21
Basic technology		
A designer's notes on hydrostatic winch drives, W. S. Bortkiewicz	Nov	116
Air-oil cylinder deliver uniform compression forces, D. H. Snyder and R. Hermes	Nov	111
Basic Pneumatics		
Chapter 19: symbols	Jan	77
Chapter 20: control design	Mar	68
Combinational network design for pneumatic MPL circuits, J. Parrish		
Part 1: basic elements	Feb	44
Part 2: design example	May	72
Control of hydraulic fluid contamination, E. C. Fitch		
Part 1: Contaminant identification and description	Mar	72
Part 2: Analysis of contaminant in fluid systems	May	68
Part 3: Restricting infiltration of contamination	Jul	38
Part 4: Filtration--contaminant arrest and removal	Nov	148
Design idea: consider coalescent filters	Apr	14
Design idea: how to size a servo valve to an application	Oct	12
Design of a regenerative hydrostatic transmission, J. G. Eleftherakis and C. F. Maguire III	Nov	108
Servo-oriented PC control flying cutoff saw, R. B. Noha	Nov	103
Efficient system maintenance is the system designer's responsibility, R. Lenich	Oct	53
Fast design of pneumatic sequencing circuits, D. W. Pessen		
Part 1: Introduction and fundamentals	Aug	63
Part 2: Example One--one-cylinder/counting circuits	Oct	57
Part 3: Example 2 -- two cylinder circuit with two parallel strokes	Dec	26
Grouping method helps design electro-pneumatic circuits, W. N. Wong	Jun	90
High tech Boeing 757 has sophisticated monitors, J. E. Klansnic	May	61
How much does a cylinder expand when it's pressurized?, H. G. Joshi	Jun	58
How to select water-cooled heat exchangers, J. D. Shaffer	Jun	86
Load sensing hydraulic systems, R. W. Henke, P.E.		
Part 1: Pump and valve controls	Jun	55
Part 2: More complex systems	Aug	52
Maintenance suggestions for reciprocating air compressors, L. Pearson	Aug	78
New compressor materials, W. H. Baker	Jun	52
Noise analysis and control in fluid power systems, H. R. Martin		
Part 5: Noise radiated from components--piston and gear pumps	Jun	60
Offshore hydraulics: tough, reliable, and failsafe, C. J. Hock	Aug	45
Pneumatic brakes make thrill ride safer, R. T. Schneider	Jul	35
Pneumatic systems for profit-making designs		
Economics of compressed air	Apr	HP-2
Cooling and drying	Apr	HP-5
The compressed air distribution system	Apr	HP-6
Storage	Apr	HP-9
FRLs	Apr	HP-10
Controls	Apr	HP-13
Actuators	Apr	HP-19
Maintenance tips	Apr	HP-23
Acknowledgements	Apr	HP-24
Pneumatics in the automotive industry, T. Goldoftas		
Part 1: Mostly unheralded, pneumatics is a major power source for the manufacturers of cars	May	65
Part 2: When larger OD tubing is needed, connect tubing ports with these fittings	Dec	28
Research Update: a new hydraulic flow fuse, Y. M. El-Ibiary and P. K. Nikiforuk	Oct	72
Selecting electric motors to drive hydraulic pumps, J. N. Adams and J. E. Thomas		
Part 2: important electric motor selection factors	Mar	64
Stop that leak with straight thread fittings, Z. J. Lansky	Apr	77
35 Years of progress for fluid power: Fluid power technology has come a long way,	Sep	59
Triple-threat fluids, A staff report	Jun	54
What's available in pressure gages?, A staff report	Aug	52
What's happening in American business, M. Greenfield	Jan	75
Books, education, and training		
Basic Pneumatics		
Chapter 19: Symbols	Jan	77
Chapter 20: Control design	Mar	68
Efficient system maintenance is the system designer's responsibility, R. Lenich	Oct	53
Circuit and system design		
A Designer's notes on hydrostatic winch drives, W. S. Bortkiewicz	Nov	116
Air-oil cylinder deliver uniform compression forces, D. H. Snyder and R. Hermes	Nov	111
B-1B hydraulics; practical, innovative designs, V. J. Austin	Sep	61
Basic Pneumatics		
Chapter 20: control design	Mar	68
Circuit of the month		
Air bleed valve helps prime system's pump, B. Eduputanti	Feb	52
Backpressure decelerates press cylinder at any select point	Aug	56
Counterbalance circuit controls weight of feed roll	Mar	88
Combination valve package shrinks bus invalid lift	Apr	12
Combinational network design for pneumatic MPL circuits, J. Parrish		
Part 1: basic elements	Feb	44
Part 2: design example	May	72
Design idea: consider coalescent filters	Apr	14
Design idea: how to size a servo valve to an application	Oct	12
Design of a regenerative hydrostatic transmission, J. G. Eleftherakis and C. F. Maguire III	Nov	108
Servo-oriented PC control flying cutoff saw, R. B. Noha	Nov	103
Efficient system maintenance is the system designer's responsibility, R. Lenich	Oct	53
Fast design of pneumatic sequencing circuits, D. W.

Face to Face, The Rexroth Corp.	Oct	78

Industrial equipment

Circuit of the month		
Backpressure decelerates press cylinder at any select point	Aug	56
Counterbalance circuit controls weight of feed roll	Mar	88
Design idea: consider coalescent filters	Apr	14
Fluid power feeds workpieces to dishwasher assembly lines, J. M. Bergant and E. L. Felt	Sep	68
How to select water-cooled heat exchangers, J. D. Shaffer	Jun	86
Hydraulic robotic system automates assembly for printer cartridge ribbons, J. L. Kracke	Mar	61
Maintenance suggestions for reciprocating air compressors, L. Pearson	Aug	78
PC directs hydraulic molding press cycle, A. J. Warner	Feb	39
Pneumatic systems for profit-making designs		
The compressed air distribution system	Apr	HP-6
Maintenance tips	Apr	HP-23
Strip slitter supplies automated tube-making line, W. H. Marsh	Feb	50
Water jet slices asbestos safely, ...	May	10

Linear actuators, shock absorbers, and intnsifiers

Air-oil cylinder deliver uniform compression forces, D. H. Snyder and R. Hermes	Nov	111
Circuit of the month		
Backpressure decelerates press cylinder at any select point	Aug	56
Fast design of pneumatic sequencing circuits, D. W. Pessen		
Part 2: Example One--one-cylinder/counting circuits	Oct	57
Part 3: Example 2 -- two cylinder circuit with two parallel strokes	Dec	26
How much does a cylinder expand when it's pressurized?, H. G. Joshi	Jun	58
Hybrid intensifier boosts 3000-psi working oil to 50,000 psi water jet, J. H. Hilaris	Jul	42
Pneumatic systems for profit-making designs		
Actuators	Apr	HP-19

Maintenance, repair, and testing

Control of hydraulic fluid contamination, E. C. Fitch		
Part 1: contaminant identification and description.	Mar	72
Part 2: analysis of contaminant in fluid systems ...	May	68
Part 3: restricting infiltration of contamination	Jul	38
Part 4: Filtration--contaminant arrest and removal	Nov	148
Efficient system maintenance is the system designer's responsibility, R. Lenich	Oct	53
Hydraulic designs help insure F-18's combat readiness, J. R. Snyder	Dec	21
Maintenance suggestions for reciprocating air compressors, L. Pearson	Aug	78
Noise analysis and control in fluid power systems, H. R. Martin		
Part 5: Noise radiated from components--piston and gear pumps	Jun	60
Pneumatic systems for profit-making designs		
Maintenance tips	Apr	HP-23
Triple-threat fluids, A staff report	Jun	54

Mobile and marine

Combination valve package shrinks bus invalid lift ...	Apr	12
Design of a regenerative hydrostatic transmission, J. G. Eleftherakis and C. F. Maguire III	Nov	108
Offshore hydraulics: tough, reliable, and failsafe, C. J. Hock	Aug	45
Sophisticated controls for mobile hydraulics, A staff report	Jun	49
Smart hydraulics control and run combine, ...	Sep	74

Pneumatic components and equipment

Air-oil cylinder deliver uniform compression forces, D. H. Snyder and R. Hermes	Nov	111
Basic Pneumatics		
Chapter 19: symbols	Jan	77
Chapter 20: control design	Mar	68
Circuit of the month		
Air bleed valve helps prime system's pump, B. Edupuganti	Feb	52
Combinational network design for pneumatic MPL circuits, J. Parrish		
Part 1: basic elements	Feb	44
Part 2: design example	May	72
Design idea: consider coalescent filters	Apr	14
Fast design of pneumatic sequencing circuits, D. W. Pessen		
Part 1: Introduction and fundamentals	Aug	63
Part 2: Example One--one-cylinder/counting circuits	Oct	57
Part 3: Example 2 -- two cylinder circuit with two parallel strokes	Dec	26
Grouping method helps design electro-pneumatic circuits, W. N. Wong	Jun	90
Maintenance suggestions for reciprocating air compressors, L. Pearson	Aug	78
New compressor materials, W. H. Baker	Jun	52
Pneumatic brakes make thrill ride safer, R. T. Schneider	Jul	35
Pneumatic systems for profit-making designs		
Economics of compressed air	Apr	HP-2
Cooling and drying	Apr	HP-5
The compressed air distribution system	Apr	HP-6
Storage	Apr	HP-9
FRLs	Apr	HP-10
Controls	Apr	HP-13
Actuators	Apr	HP-19
Maintenance tips	Apr	HP-23
Pneumatics in the automotive industry, T. Goldoftas		
Part 1: Mostly unheralded, pneumatics is a major power source for the manufacturers of cars	May	65
Part 2: When larger OD tubing is needed, connect tubing ports with these fittings	Dec	28

Pneumatic and fluidic logic

Combinational network design for pneumatic MPL circuits, J. Parrish		
Part 1: basic elements	Feb	44
Part 2: design example	May	72

1983 Editorial Index

Pumps and power packages

	Month	Page
Load sensing hydraulic systems, R. W. Henke, P.E.		
Part 1: Pump and valve controls	Jun	55
Part 2: More complex systems	Aug	52
Maintenance suggestions for reciprocating air compressors, L. Pearson	Aug	78
New compressor materials, W. H. Baker	Jun	52
Noise analysis and control in fluid power systems, H. R. Martin		
Part 5: Noise radiated from components--piston and gear pumps	Jun	60

Robots and robot systems

Hydraulic robotic system automates assembly for printer cartridge ribbons, J. L. Kracke	Mar	61

Rotary actuators, fluid motors, HSTs

A Designer's notes on hydrostatic winch drives, W. S. Bortkiewicz	Nov	116
Design of a regenerative hydrostatic transmission, J. G. Eleftherakis and C. F. Maguire III	Nov	108

Servo systems and components

Design idea: how to size a servo valve to an application	Oct	12
Servo-oriented PC control flying cutoff saw, R. B. Noha	Nov	103

Valves

Circuit of the month		
Air bleed valve helps prime system's pump, B. Edupuganti	Feb	52
Combination valve package shrinks bus invalid lift	Apr	12
Design idea: how to size a servo valve to an application	Oct	12
Grouping method helps design electro-pneumatic circuits, W. N. Wong	Jun	90
Load sensing hydraulic systems, R. W. Henke, P.E.		
Part 1: Pump and valve controls	Jun	55
